Sure – that would be great. I looked over much of it this morning but wasn't able to finish before LT and now am tied up for a bit.

Thanks

Hi Sarah: I can clean up the current marked up version of the CS for Darcy if needed.

Douglas

Douglas—this looks good to me for the purposes of additional review, as with all comm strats, we can continue to modify if and as needed. I will recirculate the draft press release later as a reminder and opportunity for additional review and comment.

Rich

Hi Laura: can you let me know if you (or Rich) will have any further comments on this document?

We will need to get a final draft to Darcy this week for her review.

Thanks,

Douglas

---

Hi Laura: here is our updated draft CS for your review. I left in your previous comments but incorporated the initial edits you made. The document will also need additional formatting corrections.

Thanks,

Douglas

Rich/Laura: as a point of reference, here is the PR Lisa developed announcing reissuance of our draft UIC permits in August 2019.

Thanks, Douglas—as updates are being made, Laura and I look at the current material and help draft a PR on this. I should have time to do so later this week. Are we still looking at October 23 timeframe on this?

Rich

Thanks Laura: yes, this dated document was mostly to help get you up to speed on this long term permitting effort. I will plan to update it to consistent with our plans to issue the final permits including additional Qs and As before I send it to you for review.

Douglas

Douglas: I started reviewing this draft but realized it reflects the comms plan for the draft, not final, permits. I've made some suggestions in this version., Once tech language is updated, I can review from a comms perspective. If you think I should continue commenting on this version, please let me know and I'm happy to continue my review. I just thought it made sense to wait for the next iteration. Laura
